Welcome in our practice! You come to us because something is wrong with your teeth or your jaw. Here you can read how we together will solve these problems.

The practice in Leiden exists more than 30 years. The practice in Voorschoten more than 20 years. Over these years we have provided orthodontic treatment for an extensive number of expatriates due to the close connections to Leiderdorp, Noordwijk, Wassenaar and The Hague. We aim to create a warm and easygoing atmosphere in which we treat everyone with respect.

Orthodontic treatment

Consists of a five phases:

1- Initial orthodontic exam

We evaluate treatment need and discuss options. Includes one radiograph.

2- Diagnostic records

Plaster-models, radiographs, photos and treatment-planning.

3- Consultation and explanation

of the treatment plan, after a careful evaluation your specific needs.

4- Placement of the appliance

Takes approximately 40 minutes and includes the specific instructions.

5- Control visits

Every 4 to 8 weeks during 12 to 24 months.

Treatment for expats

Our practice is located nearby the British School in Voorschoten and the American School in Wassenaar. Therefore we have broad experience treating expatriates. Even The Hague (Den Haag) is only 15 minutes away. Amsterdam at 25 minutes.

We are fluent in English, German and French (Dr Wassenberg), Italian (Dr Bakker), and Spanish (Dr Njio).

We specialize in individual orthodontic treatment for adults. Our treatment usually takes 9 to 18 months. We do not use headgear in adults. Tooth-colored (white) braces are routinely used. We also use tooth-colored, white wires.

Our practice locations:

- Orthodontics Leiden -
Tel: 071-5170826
(1 minute walk from Leiden Central St)
- Orthodontics Voorschoten -
Tel: 071-5617249 (Mon/Wed/Thurs)
(Near the city-center, parking in front).

Costs of treatment

All Dutch insurance companies refund (parts of) our fee. Also for adults. The amount of refund depends on your individual contract (your policy). We also have experience with BUPA. A first visit (including a panoramic radiograph) costs 70 to 100 euro. A complete examination and design of an individual treatment plan (including personal explanation) costs 250 Euro. A treatment with fixed appliance (braces) costs 1200 to 1700 Euro. The cost of continuing treatment started elsewhere varies.

Continuing treatment

If you already have braces from elsewhere we can continue this treatment for you. Clearly we will review the treatment so far and we will revise the plan. As the next step we will inform you about the revised planning and the necessary procedures in treatment. Sometimes minor changes have to be made. We can also assist you to find a reliable dentist or dental hygienist.

Orthodontics for children and adults

Our orthodontists have formal academic education (5/6 years dental and 4 years orthodontics). We specialize in individualized orthodontic treatment for children and adults. We will independently advise you on different treatment options. For complex problems we cooperate with dentists with specialization in: periodontics (gums); oral surgery; aesthetic treatments (bleaching and facings); etcetera. We have a long-lasting cooperation with most dentists in the wider Leiden, Leidschendam, Zoetermeer, Delft, Den Haag, Noordwijk, Oegstgeest area. Our practices date back to 1977.

Good to know:

1. How to reach us

We have a fully computerized telephone unit. But please realize that many calls come in at the same time. Therefore we recommend you to call after 10:30. But it may be easier to send an email!

2. Use your email

For any questions:
balie@rechtetanden.info

3. Our practice web-site

www.straightteeth.nl

4. Solving inconveniences

In Leiden you can attend our emergency consultation without previous notice at 8:15 before school starts on Monday to Thursday. In Voorschoten this early emergency consultation is available on Monday and Thursday. For other days we recommend an email or telephone call for an appointment to your convenience.
